The superior connotation associated with wine sets the basis for an experience that lends itself to upper management groups. A dynamic business simulation game that will catch your imagination and reinforce practical business concepts in a fun, competitive environment.

Technology adds an extra dimension and enhances the product even further. Electronic voting assists with scoring and video cameras and tablets are used by teams to design marketing elements.

Included in the program is a Wine Tasting from The Cape Wine Academy who supply: all the wines, a presenter, glasses, crackers, spittoons etc. Six wines served, 3 whites & 3 reds, all exclusively South African.
