

TEAM BUILDING
WORKING AS A TEAM

AFFORDABLE ADVENTURES **TEAM BUILDING**

EVERYTHING A **SUCCESSFUL** TEAM NEEDS

COLLABOR-ART

Members of the team collaborate and co-create metaphors describing key elements of their present or envisaged success. As an additional service the final product can be framed in order to serve as a constant reminder. Additional cost will apply. It is a custom made interactive solution designed to incorporate your brand elements into a 'value-added' art piece using our experience. This is ideal for conveying core principles, conference themes and any marketing elements. The use of NLP techniques are applied to encapsulate the teams characteristics

The group is split into smaller teams and made responsible for a section of a large art "Masterpiece." No one is aware of what this "Masterpiece" looks like, however teams will need to collaborate and work together to make sure that they are all on the right track.' Once all the teams have completed their "projects", there is a short break while we arrange all the sections to reveal the "Masterpiece". The groups are invited back where, with due ceremony, it is revealed!

OBJECTIVE & SKILL

Create an individualised team identity.
Management, Delegation, Trust, Goal Orientation
and Mental Stimulation.

LEVEL OF ACTIVITY

Light

LOCATION

Indoor room with tables and chairs
