FOOTLOOSE AMAZING RACE

A fantastic, fun filled event and is a great way of getting your delegates outdoors and participating. Sight, sound, touch, and taste will all be put to the test, not to mention keeping your eyes open along the route. With the help of a compass and cryptic clues, teams have to navigate their way through the route. Tablets are used as a tool for audio task identification and video cameras are provided to film the various tasks through-out the day. This ensures not only continuous stimulation but an entertaining viewing at the end and insight into other team's strategies!

The course includes four stops, at which the teams will complete various tasks. Different challenges will be provided to keep the teams active throughout the duration of the program. Activities will include: Key Grab, Marble Maze, Laser Clay Pigeon Shooting, Archery (*If Archery and Laser Clay are not available, they will be substituted with Katty Shootout*).
