

TEAM BUILDING
WORKING AS A TEAM

AFFORDABLE ADVENTURES **TEAM BUILDING**

EVERYTHING A **SUCCESSFUL** TEAM NEEDS

SOAP BOX GRAND PRIX

Let your team get into gear in this totally unique team building experience. Soap Box Grand Prix tests the communication skills, collaboration and resourcefulness of your team whilst constructing the ultimate full scale cardboard car! Using your time effectively is paramount for you and all of the other equally determined teams. Each team has to rally their collective skills to turn materials into the ultimate cardboard driving machine, and at the same time, create human-horsepower aiming for perfect synchronisation.

The Soapbox is about crew and driver. Your group will be split up into smaller racing teams whose goal will be to build a custom concept car for a people-powered race. Each team develops a blueprint design that must be approved for safety. The concept car must have a chassis and body. Team members must build their race car according to their blueprints. While the car is under construction, other team members will decorate a set of driver's coveralls with the team's theme.

To fire up the team spirit and prepare their driver for competition, team members will create and perform their very own Team Chant. Teams will race against each other and the clock to see who will make it to the final Winner's Circle.

OBJECTIVE & SKILL

Working as a team, Assigning Roles
Goal orientation, Planning, Time Management

LEVEL OF ACTIVITY
